

**WHAT IS CLAIMED IS:**

1. A billiards chalk assembly comprising:

a case having an open top and a rubbing plate is connected to an outside of  
the case, a chalk piece received in the case and a top surface of the chalk piece  
5 extending from the open top of the case, and

a cover having a hole defined through a top thereof and the case movably  
received in the cover from an open bottom of the cover, the top surface of the chalk  
piece contacting an inside of the top of the cover.

2. The assembly as claimed in claim 1, wherein the rubbing plate is located  
10 opposite to the open top of the case.

3. The assembly as claimed in claim 1, wherein the outside of the case  
includes a recess defined therein and a groove is defined in a surface of the recess, a  
periphery of the rubbing plate engaged with the groove.

4. The assembly as claimed in claim 1, wherein a height of the case is two  
15 third of a height of the cover.
